

Helps you Create a Wardrobe For Your Personality and Lifestyle! First Meeting - Spring & Summer Wardrobe

BEFORE: On purchasing the pink striped suit from a sales associate who told her, "It looked nice on her." Once she got it home, our client questioned her decision to purchase it, and the sales associate's assertion that it looked good on her. Limited experience with makeup and wrong colour choices left our client pretty much "not bothering at all." Her daughter had been encouraging her mother to take better care of herself so she purchased a gift certificate so her mother could have her colours done.

THE PROCESS: We discovered a whole new person just waiting to come alive. Colours, personality and creating a wardrobe around our client's career and lifestyle were put into effect with amazing results.

1. Her Seasonal Colour Analysis showed pink, pastel or cool colours were making her look pale. Warm colours for makeup and clothing were introduced which harmonized with her own warm and golden complexion.
2. Her Personality Profile revealed a very elegant, sporty, classic and romantic side. Feeling she had to fit into what everyone else was wanting for hera lot went hidden.
3. Her figure analysis indicated she was wearing ill-fitting clothes in boxy shapes... we found a perfect size 6, hour glass figure hiding behind the clothes that our client was choosing. Being self conscious she hid a figure most women spend thousands of dollars in surgery trying to create. Her age, she has said we can tell you...is 63!
4. The wardrobe plan and shopping met our client's personality and lifestyle.
5. The wardrobe audit sent 6 big bags of clothing to the church.

Her children are now saying, "Mom, Wow!" Her husband can't wait to take her out and have her on his arm. Our client loves her clothes, and loves to dress. She applies makeup regularly, and loves knowing that every outfit is in the right colour, fit and style for every occasion. No more doubts about wondering what to wear, and when. In her own Profession she smiles to herself as she sees her clients checking her over, admiring the change.

Second Meeting - Fall & Winter Wardrobe

YOU'LL BUILD CONFIDENCE, KNOW-HOW AND MAKE EVERY ITEM A WINNING STATEMENT
